Angular	

# Eshel Eyni

Full Stack Developer

## PROFILE

I'm interested in pursuing a Full Stack or Frontend Development position where I can utilize and enhance my existing development skills. My aim is to further refine my coding proficiency and contribute to the creation of innovative software solutions.

My interests lie in programming, art, and anything smart.

## EXPERIENCE

### SOFTWARE ENGINEER

February 2023 - Present

IDMR I Ra'anana

- In my current role as a Developer, I extensively utilize SQL and XSLT within an established system.
- My primary responsibility involves addressing and rectifying bugs that are assigned to me, ensuring the system maintains its functionality and reliability.
- Additionally, I take part in the enhancement of our system by adding new features and entities as per the specifications provided, continuously contributing to its evolution and adaptability to our business needs.

### THEATER TEACHER

October 2021 - July 2022

Cut Communication I Tel Aviv, Tzahala

- Predominantly, my work was situated within an elementary school environment, where I had the fulfilling opportunity to introduce young minds to the captivating world of drama and cinema
- This role enabled me to blend my passion for teaching with my expertise in film, thereby fostering a love for these art forms within the students.

### SHORT-TERM ENGAGEMENTS

2015-2021

During my pursuit of a GED and subsequent degree, and amid the challenging circumstances of the COVID-19 pandemic, I engaged in several short-term engagements to broaden my skill set and gain practical experience.

- Barista
- Customer Service
- Food Retail Management
