- | | |
|------------|------------|
| CSS/SCSS | NodeJS |
| JavaScript | SQL |
| TypeScript | MongoDB |
| XSLPath | Jest |
| React | Docker |
| Redux | Kubernetes |
| Angular | Python |
| Vue | |

Eshel Eyni

Full Stack Developer

PROFILE

I'm interested in pursuing a Full Stack Development position where I can utilize and enhance my existing development skills. My aim is to further refine my coding proficiency and contribute to the creation of innovative software solutions.

EXPERIENCE

FULL STACK DEVELOPER

January 2026 - Present
QbiqAI I Tel Aviv
Develop and maintain an AI-powered SaaS platform for commercial real estate planning using Vue and Python. Build new features, resolve bugs, and improve the platform's performance and user experience.

FULL STACK DEVELOPER

July 2024 - January 2026
Webiks I Tel Aviv
Developed and maintained a security-focused application using React, Node.js, and Electron. Delivered features, fixed bugs, and improved performance in an Agile team.

FULL STACK DEVELOPER

February 2023 - July 2024
IDMR Solutions Inc. I Ra'anana
Developed new features for a mature aviation management system using SQL Server, XSLT, and jQuery. Built user interfaces, enhanced system capabilities, and documented technical specifications in Axosoft.

THEATER TEACHER

October 2021 - July 2022
Cut Communication I Tel Aviv, Tzahala
Predominantly, my work was situated within an elementary school environment, where I had the e fulfilling opportunity to introduce young minds to the captivating world of drama and cinema

SHORT-TERM ENGAGEMENTS

2015-2021
During my pursuit of a GED and subsequent degree, and amid the challenging circumstances of the COVID-19 pandemic, I engaged in several short-term engagements to broaden my skill set and gain practical experience.
